#### PROGRAM NARRATIVE

Program Data Collected in Accordance with the Mississippi Performance Budget and Strategic Planning Act of 1994 (To Accompany Form MBR-1-03)

MS State Univ - Water Resources Research Institute 1 - Research & Technology Transfer Name of Agency

Program Name

#### I. Program Description:

Mississippi Water Resources Research Institute. The Mississippi Water Resources Research Institute (MWRRI) was authorized by Mississippi's Governor Paul B. Johnson in 1964 and was designated as a state research institute by the Mississippi Legislature in 1983. The State Water Resources Research Act Program, authorized by section 104 of the Water Resources Research Act of 1984, coalesced MWRRI with 53 other Water Resources Research Institutes or Centers, one in each of the 50 states as well as the District of Columbia, Puerto Rico, the U.S. Virgin Island, and Guam. The aim of this Federal-State partnership is four-fold:

- 1. Plan, facilitate, and conduct research to aid in the resolution of State and regional water problems
- 2. Promote technology transfer and the dissemination and application of research results
- 3. Provide for the training of scientist and engineers through their participation in research, and
- 4. Provide for competitive grants to be awarded under the Water Resources Research Act

Center of Excellence for Watershed Management. On April 9, 2013, MSU through the MWRRI was designated by Region 4 of the U.S. Environmental Protection Agency (EPA Region 4) and the Mississippi Department of Environmental Quality (MDEQ) as a Center of Excellence for Watershed Management with the formal signing of a Memorandum of Understanding (MOU) by these parties. The MOU acknowledges that the MWRRI had demonstrated to the satisfaction of EPA and MDEQ that it has the capacity and capability to identify and address the needs of local watershed stakeholders and that it has support at the appropriate levels of MSU. It also specifies the Center of Excellence to serve as the point of contact and primary coordinating entity for colleges and universities in Mississippi. The primary purpose of the Center of Excellence is to utilize the diverse talent and expertise of colleges and universities by providing hands on practical products and services to help communities identify watershed-based problems and develop and implement locally-sustainable solutions. The MOU also guides the Center of Excellence to actively seek out watershed-based stakeholders that need assistance with project development and management, research and monitoring, education and outreach, engineering design, computer mapping, legal and policy review, and other water resource planning and implementation needs. Annual commitments of the MWRRI to maintain the designation are also identified in the MOU.

MWRRI Mission. a) planning, facilitating, and conducting research to aid in the resolution of State and regional water problems; b) promoting technology transfer and the dissemination and application of research results; c) proving for the training of scientists and engineers through their participation in research; d) proving for competitive grants to be awarded under the Water Resources Research Act; and e) cooperating with the United States Geological Survey to support, coordinate, and facilitate research through the Annual Base Grants, National Competitive Grants, Coordination Grants, and in operating the national Institutes for Water Resources-United States Geological Survey Student Internship Program. Activities to Support Mission. The following activities were accomplished in support of MWRRI's mission during FY2020:

- a. Planning, facilitating, and conducting research to aid in the resolution of State and regional water problems
- b. Promoting technology transfer and the dissemination and application of research results
